Forty-eighth session
Agenda item 136

FINANCING OF THE UNITED NATIONS PROTECTION FORCE

Report of the Secretary-General

Corrigendum

1. Since the issuance of the main report on the financing of the United Nations Protection Force (UNPROFOR) dated 3 December 1993, a number of the cost parameters and assumptions contained in annexes VI and VIII of that report have changed, which have necessitated a revision of the cost estimates. Total reductions to the cost estimates for the period from 1 July 1993 to 31 March 1994 amount to $24,087,900 gross ($22,882,700 net), while the cost estimates for the subsequent 12-month period from 1 April 1994 to 31 March 1995 have increased by $6,052,200 gross and net.

I. COST ESTIMATES OF THE UNITED NATIONS PROTECTION FORCE FOR THE PERIOD FROM 1 JULY 1993 TO 31 MARCH 1994

2. Annex V has been revised to increase the amount under column 1 (current apportionment) by $383,408,000 gross ($380,000,000 net), from $395,000,000 gross ($391,515,650 net), to $778,408,000 gross ($771,515,650 net). The increase is the amount authorized by General Assembly decision 48/470. The total requirements have been decreased from $897,980,900 gross ($891,993,300 net) to $873,893,000 gross ($869,110,600 net), based on revised estimates for civilian staff costs, transport, air operations and freight. The amount under column 2 (additional requirements) has been decreased from $502,980,900 gross ($500,477,700 net) to $95,485,000 gross ($97,594,900 net). This results from the additional amount authorized by Assembly decision 48/470 and the lower overall cost estimates. The items that require revision are described below.

A. Civilian staff

3. The report requests approval for an increase of 984 civilian staff posts, consisting of 90 Professional, 4 General Service (Principal level), 56 General Service, 10 Security Service, 80 local staff and 744 international contractual personnel.

4. Since the current mandate period of UNPROFOR ends on 31 March 1994, it will not be possible to fill these additional posts before mid-March, at the earliest, pending approval of the increased staffing by the General Assembly. It is assumed that many of these posts can be filled by staff from the recently completed United Nations Transitional Authority in Cambodia (UNTAC) mission.

5. Cost estimates for international staff, local staff, common staff costs, mission subsistence allowance, international contractual personnel, support account and staff assessment have been revised based on the deployment schedule shown in amended annex IX C. The total reduction for these items amounts to $14,397,500 gross ($13,192,300 net).

B. Transport operations

6. The phasing-in schedule of United Nations-owned and contingent-owned vehicles indicated in paragraphs 20 and 21 of annex VI to the main report has been revised as a result of delays in the procurement of United Nations vehicles and an increase in the number of contingent-owned vehicles. The number of United Nations-owned vehicles on board as at 1 December 1993 has been decreased from 1,637 to 1,553 and as at 1 January 1994 from 2,293 to 1,653. On the other hand, the number of contingent-owned vehicles on board has increased from 7,818 to 8,052 as at 15 February 1994 and to 8,272 as at 1 March 1994.

7. The cost estimates for spare parts, repairs and maintenance, petrol, oil and lubricants and insurance have been revised, resulting in a net decrease of $78,300.

C. Air operations

8. Provision had been made in the original cost estimates for the deployment of eight additional S-61 helicopters and two CH-47 helicopters on 1 December 1993. These helicopters will not be deployed before 1 April 1994. Furthermore, the monthly costs for basic hire, insurance, and crew subsistence allowance have changed as a result of the changeover to other contractors. The number of hours contracted for each month has increased from 180 to 270 for each of the Bell-206 and Bell-212 helicopters, from 80 to 120 for each of the 2 IL-76 aircraft and from 70 for the AN-32 to 90 for the AN-26 aircraft. The cost estimates under this heading have been reduced by a total amount of $11,458,800.

9. An amended annex XII A is attached.

D. Air and surface freight

10. The amount provided under this heading has been increased by $1,846,700 from $2,885,000 to $4,731,700 based on actual costs incurred to date.

II. COST ESTIMATES OF THE UNITED NATIONS PROTECTION FORCE FOR THE PERIOD FROM 1 APRIL 1994 TO 31 MARCH 1995

11. As a result of the increased number of contingent-owned vehicles and new contractual arrangements for air operations, the cost estimates for the period from 1 April 1994 to 31 March 1995 have increased by $6,052,200, as indicated in revised annex VII.

12. The cost estimates for transport operations for the period from 1 April 1994 to 31 March 1995 were based on a total of 2,293 United Nations-owned vehicles for 12 months, 7,818 contingent-owned vehicles for 12 months and an additional 500 contingent-owned vehicles (for the new battalions) for 9 months.

13. Only 1,653 United Nations-owned vehicles will be on board on 1 April. Furthermore, 8,272 contingent-owned vehicles need to be included for the full 12 months, plus the additional 500 vehicles for 9 months. An additional amount of $3,870,100 is therefore required for transport operations.

14. The requirements for air operations need to be increased by $2,182,100 as a result of the new contractual arrangements. A revised annex XII B is attached.

III. VOLUNTARY CONTRIBUTIONS

15. Ten housing units were provided to UNPROFOR in December 1993 by the Government of Finland, which have been valued at $57,000. An updated cumulative list of voluntary contributions received, with their values, is contained in revised annex XXIII.

IV. FINANCIAL ADMINISTRATION

16. The total resources made available to UNPROFOR by the General Assembly for the period from 12 January 1992 to 28 February 1994 amount to $1,640,302,300 gross ($1,628,231,650 net), consisting of $861,894,300 gross ($856,716,000 net) from appropriations and $778,408,000 gross ($771,515,650 net) from authorizations. Estimated expenditures for that period amount to $1,614,082,800 gross ($1,602,847,450 net), resulting in an unencumbered balance of $26,219,500 gross ($25,384,200 net). In addition, interest and miscellaneous income during the period totalled $4,384,510 and $315,875, respectively. A detailed summary is presented in revised annex XXII.

ANNEX V

Cost estimate of the United Nations Protection Force for the period from 1 July 1993 to 31 March 1994: summary statement

(Thousands of United States dollars)

	Current apportionment (1)	Additional requirements (2)	Total requirements (1) + (2)
1. Military personnel cost			
(a) Military observers
